Also Affected - Tight Money Is Threatened by Call for More Gold from Bank of England.

New York, March 29.—News of the death of Justice Brewer, of the Supreme Delaware & Rio Grande com. 40 Delaware & Rio Grande pfd. 79 Court, was received with sincere regret to-day in the financial community; first, because he was conceded one of the ablest members of the tribunal in the library for the distribution of the library for the library ablest members of the tributation of the tributation of the tributation of the tributation of uttering the last words on questions of uttering the last words on questions of uttering the last words on questions of the tributation of the trib

If, on the other hand, the Supreme Court is either evenly divided or has reached a decision where the result depended upon a single vote, it is conceivable that the court would ask for a reargument when a new judge is appointed. Inasmuch as all these questions depended upon contingencies, regarding which there could be no possible enlightment, they figured only vaguely as stock market factors. The market itself, taking the day as a whole, bore witness plainly to the desire of speculators for the fall to hive the profits that yesterday accumulated on their ventures. In the early part of the day the market was again weak, falling to a level about a point lower in the case of the prominent stocks than was touched at any time stocks than was touched at any time Great Northern Ore ... yesterday. Rain Causes Grain Decline.

The rise was also facilitated by one important development, and that was a fair rain fall over at least a portion of the West and Southwest, where the winter wheat crop has hitherto been suffering from drought. This of course winter wheat crop has hitherto been suffering from drought. This, of course, caused a decline in the grain market and was also partly responsible, no doubt, for a moderate fall in the cotton options. It did not seem to be the case that today's rain was very heavy at any place or that it prevailed more than moderately in Texas, where the effects of the drought had been more severe than fardrought had been more severe than far-

concerning which, no doubt at all is expressed by our bankers that a further advance in the Bank of England's discount rate would lead to gold exports from this side with the necessary consequence of tightening money rates here. Bay State Gas...

The Safest Investments

Are those that do not fluctuate during dis-turbed conditions of the money or stock markets. First deed of trust notes (first mortgages), well secured on real estate in the District of Columbia, constitute "git-edge" investments. They do not depend upon the financial responsibility of indi-viduals or corporations for their stability, and are exempt from taxation as personal property. We can supply such investments in amounts from \$500 upward. Send for booklet, "Concerning Loans and lovestments."
